

Fylde Section

Why implants fail

Monday 18 November 2024

1 hr 30 mins CPD

Development outcome **(A) (B) (C) (D)**

Aim

To discuss the currently accepted causes for implant failure and introduce evidence for emerging competing theories and the relevance to clinical practice.

Learning objectives

- To be aware of the key concepts of implant health and disease
- Identify the known reasons for early and late implant failure
- Understand the basis for the competing theories on peri-implantitis
- Discuss potential advances in the prevention of peri-implantitis.

Timings

18:30 Registration
