

Hounslow and Twickenham Section

Happy patients, happy life: How GDPs can ensure implant satisfaction in an aesthetic world Wednesday 9 April 2025

Development
outcome **A** **B** **C** **D**

This session will enhance your knowledge of dental implant procedures, including the aesthetic scoring system, post-extraction pattern and rate of bone resorption, treatment options, common challenges, preservation techniques, and referral guidelines.

Learning objectives

- Understand the conventional implant treatment protocol and discuss the aesthetic scoring system (WES/PES)
- Analyse the post-extraction and evaluate the latest implant treatment options
- Identify the pitfalls of implant treatment, discuss socket-preservation techniques, and determine when to refer for implant treatment.

Timings

18:45 Registration and networking

19:00 Lecture

20:30 End
