

An update in conscious sedation for the dental team: patient safety

1 hr 30 mins CPD

Wednesday 12 March 2025

Development outcome **(A)(B)(C)(D)**

Aim

To discuss current strategies for conscious sedation in dentistry and give an overview of ways to improve patient safety in sedation.

Learning objectives

By the end of this activity, the participant should be able to:

- Describe current medical issues affecting patients treated with sedation
- Discuss appropriate assessment of patients for conscious sedation in primary care
- Be able to identify when advanced sedation is more appropriate and when to refer.
