

Oldham and Rochdale Section

Oral medicine – to refer or not to refer?

Wednesday 18 June 2025

1 hour 30 minutes CPD

Development outcome (A) (B) (C) (D)

This event will update you on conditions manageable in primary care, those requiring referral and the importance of a good referral.

Learning objectives

- Manage tier 1 conditions comfortably in primary care seeking advice where required
- Identify conditions in oral medicine that require a prompt referral
- Understand that the information provided on a referral will affect the triage outcome and time delay to consultation appointment
- To understand common reasons as to why oral medicine referrals may get rejected.
