

Recognising oral cancer

Wednesday 2 October 2024

1 hr 30 mins CPD

Development outcome **(A)** **(B)** **(C)** **(D)**

Aim

This event will review current oral cancer demographics, discuss the aetiology and risk factors associated with oral cancer and provide guidance on referral.

Learning objectives

By the end of this course, the participant will be able to:

- To develop knowledge and understanding of oral cancer
- To gain exposure to the clinical presentation of oral cancer and its differential diagnosis
- To appreciate the importance of early recognition and appropriate referral of a patient with oral malignancy.
