

'Occlusion without confusion' and 'All right on the bite'

Thursday 12 June 2025

Development
outcome

2 hours 15 minutes CPD

Aim

The first session covers occlusion features, safe and ethical intervention and checking occlusion for direct and indirect restorations.

The second session covers occlusal splint use and explores causes, treatment, and management of TMD, bruxism, and other occlusal issues.

Learning objectives

- Understand how to check and when to change the occlusion when restoring teeth
- Know how and when to use Dahl and when not to use it
- Be able to select and use a splint for a range of clinical situations including clenching, bruxism, TMD, sleep apnoea
- Be able to successfully use occlusal splints
- Know how to fit, adjust and monitor splints
- Discuss how to treat TMD and bruxism more effectively.
