## **Speaker: Ashley Byrne**

A guided walking tour through a fully operational modern dental laboratory. Participants will explore workflows, observe digital technologies in action and learn how these processes integrate with clinical dentistry to improve patient care and practice efficiency. Including expertled discussions and examples of how collaboration between lab and clinic supports optimal outcomes.

## Learning objectives

By the end of this walking tour participants will be able to:

- Describe components of a digital dental laboratory and how these relate to clinical practice
- Identify opportunities to enhance collaboration with dental laboratories for more predictable patient outcomes
- Understand how digital workflows can • reduce chair time and increase practice efficiency
- Evaluate how adopting modern lab workflows can contribute to practice growth and patient satisfaction.
