

Restorative hot tips

Thursday 5 December 2024

1 hr 30 mins CPD

Development outcome **A** **B** **C** **D**

Aim

This event offers solutions for common dentistry challenges, covering single-tooth to full-mouth treatments. The speaker will share insights to help professionals effectively address complications, with guidance on essential tools, their best uses, and modifications to improve outcomes.

Learning objectives

- Have a sound understanding of bonding protocols for silica and oxide restorations
- Have an efficient scanning workflow for difficult to reach areas of the oral cavity
- Effective clean after direct and indirect restoration placement
- Using digital technology to aid in occlusal treatments
- Troubleshooting restorative complications.
