

Practical endodontics retreatment tips and tricks

Wednesday 15 January 2025

6 hrs 45 mins CPD

Development outcome **(A)** **(B)** **(C)** **(D)**

Join us for a day exploring the causes of endodontic failure, methods of GP removal and ledge management.

Learning objectives

- Understand causes of endodontic failure
- Understand the challenges that may be encountered during re-treatment cases
- Use a selection of GP removal techniques to remove GP from obturated simulated canals and extracted teeth
- Understand the clinical steps for successful ledge management.
